Home Learning - Year R Autumn 1

Who am I?

Who is in your family?

Where do you live?

How do you change as you get older?

family

friend

senses

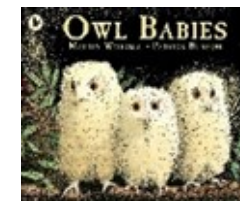

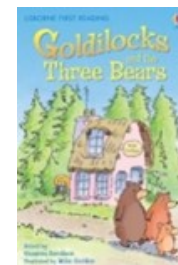

feelings

grow

life cycle

Home Learning

This grid shows home learning ideas connected to our class topic for the first half of this autumn term.

We would like to encourage all children to complete some of the tasks and bring them in to show and celebrate with the class.

Phonics and Reading

To help your child get off to a flying start with their phonics and reading....

1. Read stories to them everyday.
2. Play games such as 'I Spy' - can they say the first sound of a word, e.g. 't' for table
3. Access your Twinkl Learner Login and enjoy sharing a story together. There will more books and games to follow over the coming weeks.

Thank you for your support.

Communication and

Language

Sing songs and nursery rhymes with your family. Which is your favourite nursery rhyme?

Physical Development

How does your body change when you exercise? Go to the park, go on a scooter ride or set up an obstacle course at home and find out.

Literacy

Play 'I Spy' with your family? Can you say the first sound on a word, e.g. 'p' for pen?

Personal, Social and

Emotional Development

Paint or draw a picture that shows all the people that are special to you.

Understanding the World

Go on a 'senses walk' around your home, garden or local area. What can you see, hear, smell, feel, taste?

Mathematics

Create hand prints for everyone in your family. Can you put them in order of size, smallest to largest?

Expressive Arts and Design

Listen to different types of music at home and have a little boogie! How does the music make you feel?

You can also visit the link below to access further nursery rhymes you could learn.
