[travel.planning@brighton-hove.gov.uk](mailto:travel.planning@brighton-hove.gov.uk)  
(01273) 293813

Seafront

Toucan crossing

Cycle parking

Wear high visibility gear

## Cycle signs

	Route recommended for cycles on main road
	Shared cycle and pedestrian route
	Segregated cycle and pedestrian route
	Contra-flow cycle route
	Cycle and bus route
	White cycle symbols help to identify a route
	Warning sign - cycle route ahead - warning for motorists
	Regulatory sign - no cycling

## Pedal cycle parking places

Pedal Cycle Parking Places (PCPPs) are cycle parking places provided on the road. PCPPs help to free up pavements from being blocked by cycles parked against lamp-posts and signposts. Request an area near you for consideration.

See [www.brighton-hove.gov.uk/cycle-parking](http://www.brighton-hove.gov.uk/cycle-parking) for more information.

## Cycle code of conduct

	Lights, both front and back, are a legal requirement on a bicycle. Use them at all times when visibility is reduced.
	Ring your bell to alert pedestrians, other cyclists, and other road users that you are approaching.
	Visitors to Brighton & Hove may not be aware of the seafront cycle route. Give way to pedestrians where possible. If you are in a hurry use the road.
	Cyclists need to follow the Highway Code.
	Jumping red lights is illegal. If you do so, you may be fined.
	Cycling on pavements is illegal. If you do so, you may be fined.

## Bikeability

Brighton & Hove City Council runs school-based Bikeability training courses for children in years five and six. These courses are **free** to participants. Contact (01273) 293847 or [www.brighton-hove.gov.uk/cycle-training](http://www.brighton-hove.gov.uk/cycle-training)

## Cycle to work

Did you know there is a government tax incentive aimed at encouraging employees to cycle to work?

Under the scheme, you can get a long term loan for a bicycle and safety equipment completely **tax free**.

Find out more [www.cyclescheme.co.uk](http://www.cyclescheme.co.uk)

## Cycles on trains

Fully folding cycles (with wheels under 20" in diameter) can be carried on to all trains without restriction, although a cycle cover may be required.

Full size cycles may be excluded from trains at peak times. Reservations may be necessary at other times.

Please check before you board at [www.nationalrail.co.uk/cyclingbytrain](http://www.nationalrail.co.uk/cyclingbytrain)

## Keep your bike safe

**Use cycle parking spaces** where provided.

**Lock both wheels and the frame** to a bike stand or strong immovable object.

**Lock 'tight'** so your bike is hard to manoeuvre when parked.

**Secure your lock** so it does not touch the ground.

## Cycle security

The police advise bike tagging which helps to deter theft and allows for your bike to be identified. Search for cycle theft at [www.safeinthecity.info](http://www.safeinthecity.info)

It is also important to report stolen cycles or cycle vandalism. Sussex Police have a reporting form on their website.

Visit [www.sussex.police.uk/contact](http://www.sussex.police.uk/contact) or phone 0845 60 70 999

## Give way to pedestrians

The seafront cycle route has giveaway lines for pedestrians wishing to cross. Please cycle with courtesy and respect to all users.

## Correct hand signals when cycling

Left turn

Slow or stop

Right turn

## On the road – position yourself where you can be seen

### Junction safety

- **Advanced Stop Lines (ASLs)**  
Cyclists should use ASLs where provided. They are designed to improve visibility and safety at junctions.

- **Watch out for vehicles turning left**

- **When turning right, look, signal and wait for a safe gap to cross**

### Be aware that vehicles have blind spots

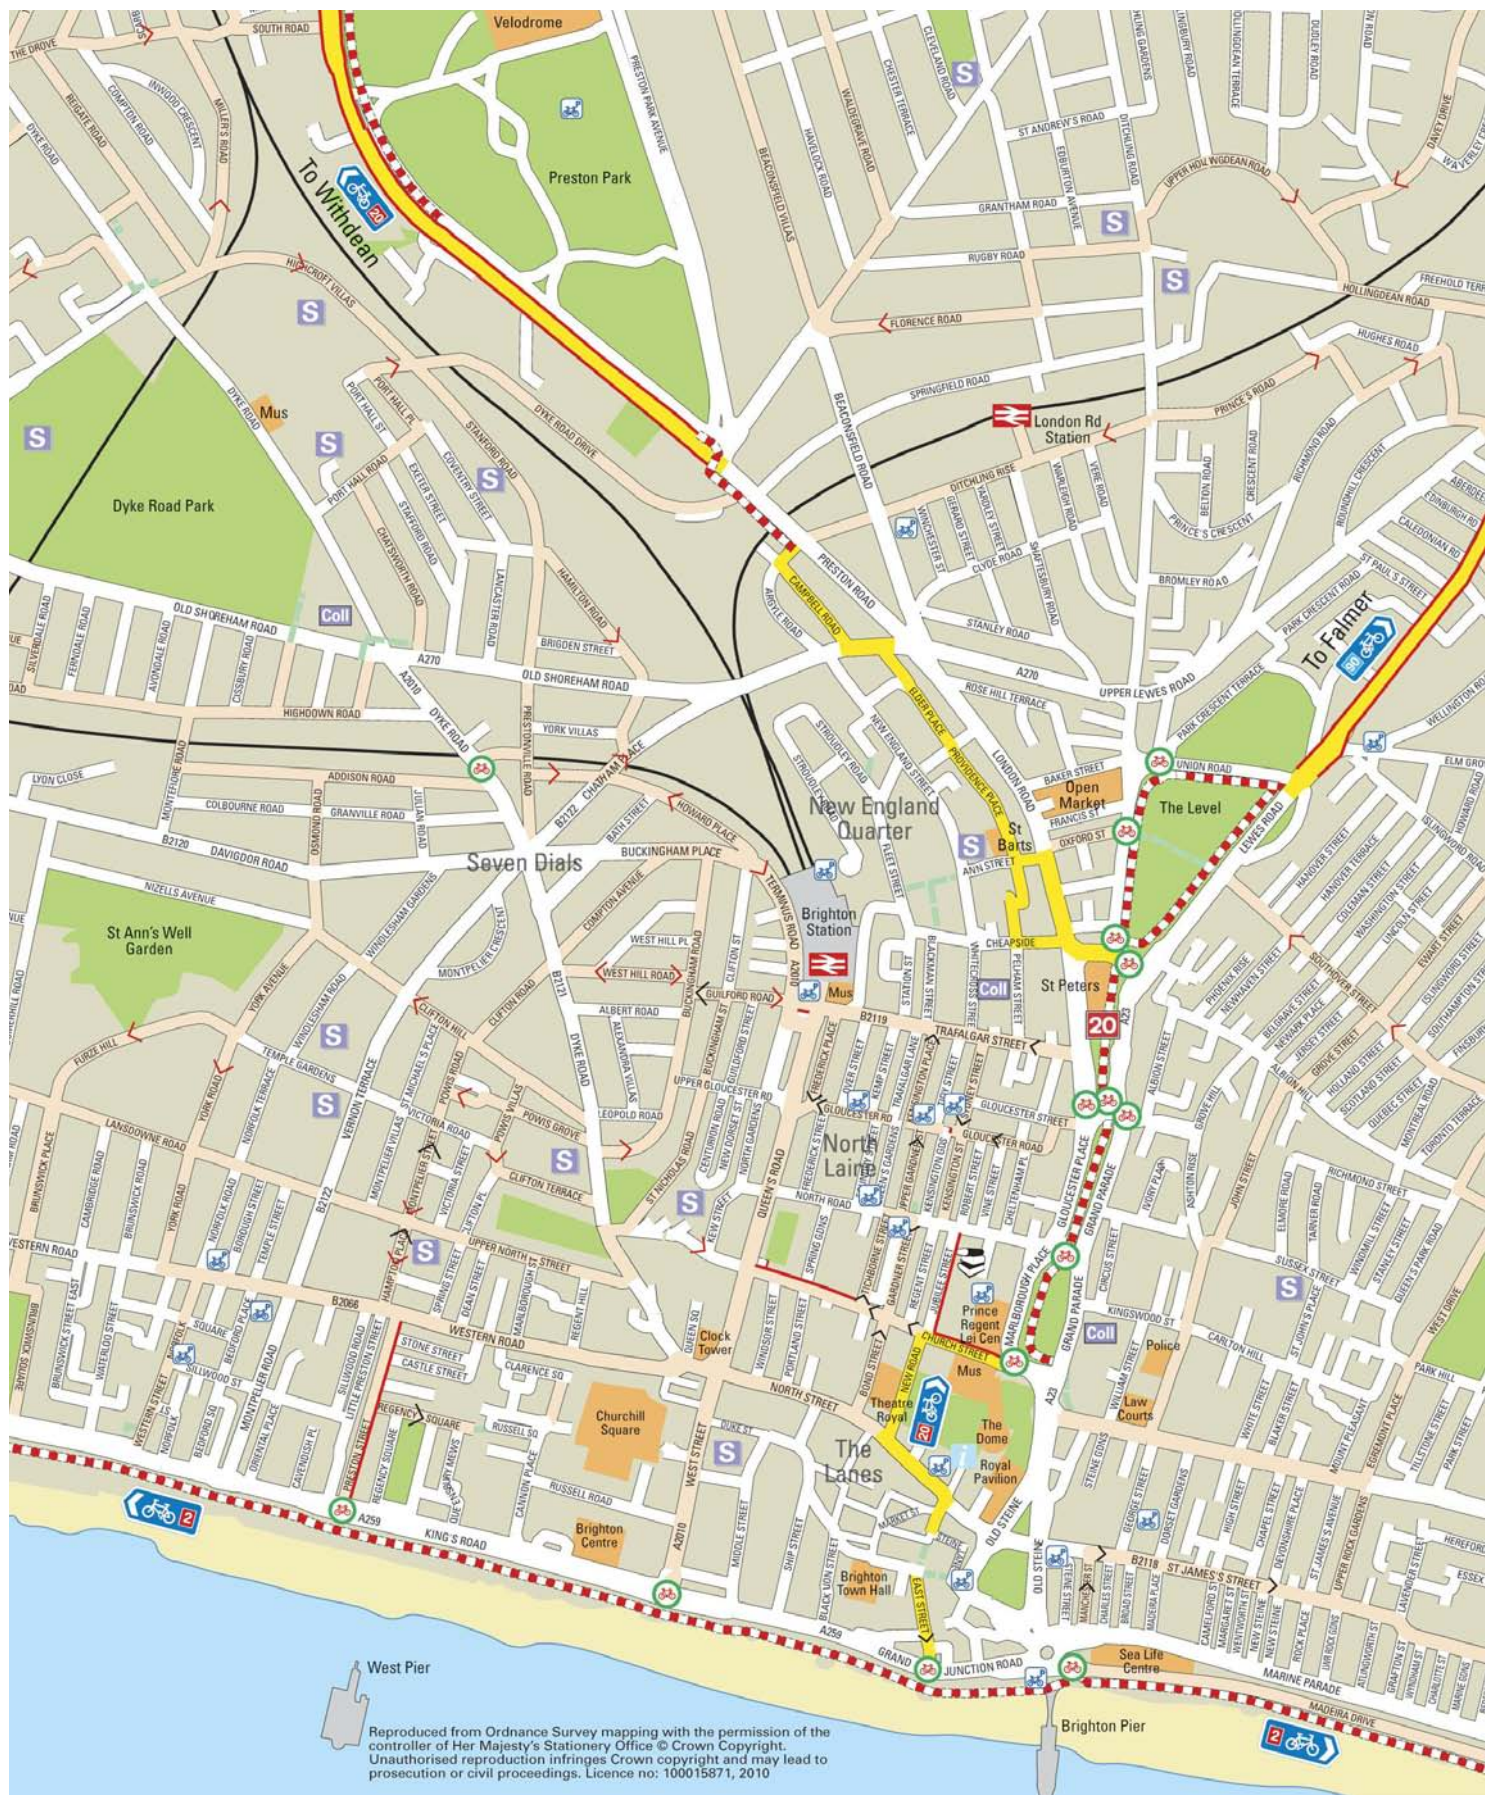

- **Bus, van and lorry drivers cannot see all around their vehicles** illustrated above in grey are the blind spots

### Be aware of hazards

- **Avoid cycling too close to the pavement or parked cars**
