Year 2 - Autumn term 2026

Homework Grid

Choose as many activities as you can and bring them to school to celebrate.

History

What did people do at the seaside in the past? Do some research or interview a family member to find out what has changed between then and now on our beaches.

Science

What is a food chain? Can you draw a food chain for animals or mammals that live in the ocean.

What is a microhabitat? Can you make a microhabitat for some animals to live in?

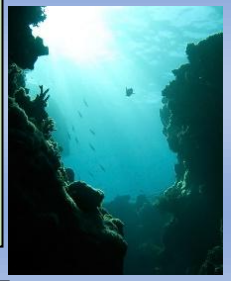

Art and DT

Can you make an observational drawing or painting of the seaside?

Can you make a diorama of a different habitat?

English

Can you write a fact file about your favourite sea creature? You could watch 'Blue Planet' for inspiration!

Maths

How many different shapes can you find at the seaside? Shells and stones can be all kinds of shapes!

Phonics and Reading

Remember to read your Rhino Reader book to someone at home.

You can also access other Rhino Readers on Twinkl and bring your gold star book back on Fridays, so that you can choose a new book!

Geography

Can you make a seaside inside a jar? Use a jam jar and fill it with sand on the bottom. Draw a picture of the seaside for the background and add some water!

Outdoors

Head to the beach! Go on a senses walk to see what you can see, hear, smell and can touch.

Be microhabitat detectives! Explore different microhabitats and identify different animals and plants.

Computing - My Online Life

Make a poster to show how you can stay safe when you're online.

Pupil Action Project - Recycling

Rights Respecting School

Can you make a poster to promote recycling in school or at home?

Why is recycling important?
